

	FOXA1	FOXA1 – AP1
Biological process	<ul style="list-style-type: none"> <li>● regulation of cell migration and cellular component movement</li> </ul>	<ul style="list-style-type: none"> <li>● regulation of transcription from RNA polymerase II promoter</li> </ul>
Molecular function		<ul style="list-style-type: none"> <li>● transcription factor activity</li> <li>● sequence-specific DNA binding</li> </ul>
